

## I would like to help with the site

Contributed by Russell Bracewell

Volunteers are graciously welcomed and needed.

### Transcriber:

We have a backlog of over 200 research documents that need to be placed online. Some of these documents need to be transcribed and others can be scanned. If you are willing to work on just 5 of these documents I can guarantee that you will become vastly interested in the family history. Please contact an administrator to get started.

### PHP programmer:

Anyone with php or html experience is needed to help add additional features to the site. Please contact an administrator to get started.

### Researcher:

Family research is never ending. We must collect all documents pertaining to the Bracewells in order to piece our history together.

Research can be conducted online or at local library. This is one of the most rewarding parts of genealogy. One document that you find will help several people with there family research.

You can sign up for the Bracewell Family Genealogy Society to get started.
